Professional Summary

Computer Science undergraduate with hands-on experience in Java backend development using Spring Boot, JDBC, and REST APIs. Currently working as a Java Intern, contributing to backend services, debugging, and scalable application development in an Agile environment. Strong foundation in OOP, database management, and API integration. Passionate about building efficient and maintainable backend systems.

Technical Skills

Languages: Java, Python, C

Backend: Spring Boot, Spring MVC, JDBC

Web & APIs: REST APIs, JSON, XML

Database: MySQL, MongoDB (Basic)

Tools: Git, GitHub, Maven, IntelliJ IDEA, Eclipse

Concepts: OOP, Data Structures & Algorithms, Debugging, SDLC

Methodologies: Agile Development

Projects

Job Portal – Spring Boot, JWT, MySQL

Currently developing a backend-driven job portal with JWT-based authentication. Implemented secure JWT-based authentication and user login system and authentication using Spring Boot and REST APIs, and working on integrating additional features for user and job management.

Student Admin Portal – Spring MVC, JDBC, MySQL

Designed and developed a backend-driven student management system with CRUD operations and authentication. Implemented Java-based business logic using JDBC and MySQL, following MVC architecture for scalability and maintainability.

Bank Management System – Java Swing, MySQL

Developed a banking application for account management and transaction processing. Implemented database connectivity using MySQL, applied exception handling, and ensured reliable data operations.

Quiz Application – HTML, CSS, JavaScript

Built an interactive quiz application with real-time scoring and dynamic question handling. Designed a responsive user interface for improved user experience.

Coffee Shop Website – HTML5, CSS3, JavaScript

Developed and deployed a responsive website with user-friendly navigation and optimized front-end performance.

Internship Experience

Java Intern – TSAR IT Services (Remote) | Feb 2026 – Present

- Developed and maintained backend services using Java and Spring Boot
- Designed and integrated RESTful APIs for efficient client-server communication
- Worked with MySQL for data storage, retrieval, and optimization
- Participated in debugging, testing, and improving application performance
- Collaborated with team members in an Agile development environment
- Used Git for version control and code management

Education

Bachelor of Engineering (B.E.) in Computer Science and Engineering

Matrusri Engineering College, Osmania University – Hyderabad (2023 – 2027)

CGPA:8.27

Key Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Artificial Intelligence & Machine Learning

Certifications

- NPTEL Certified in C Programming
- HackerRank Certified in Python
- 3■ in Java (HackerRank)

Achievements

- 1st Prize in Environmental Science College Competition
- Active Problem Solver on LeetCode & HackerRank
- Built and deployed multiple web & backend Java applications

Soft Skills

Analytical Thinking • Team Collaboration • Debugging • Problem-Solving • Adaptability • Communication
